New Warrior Training Adventure

The most recognized and respected modern initiation experience for men in the world. To date, over 65,000 men have attended this intense 48 hour experience. We conduct over 125 NWTAs per year, relying on local communities of men for support.

WHAT IS IT: The N W T A is a modern male initiation and self-examination. It is a REAL TIME hero's journey. It is the challenge of a lifetime for many men. It's safe, supportive and cutting edge. It is NOT a retreat, a conference or a workshop. It is NOT like anything you've done before. Many men rank this among the most powerful experiences of their lives.

WHAT YOU WILL GET: You'll get more than you're willing to hope for: purpose, passion, vibrancy, joy, healing, connection to self, new energy, clarity, power, freedom, understanding, brotherhood, trust. Over 65,000 men have now taken this journey, and every man's experience has been unique.

ABOUT THE N W T A: It's a life affirming event, honoring the best in what men have to offer the planet. We are only able to recognize the powerful brilliance of men because we are willing to look at, and take full responsibility for, the pain we are also capable of creating... and suffering. This is the paradox of modern masculinity, and it is a lesson we are dedicated to learning and teaching.

AT THE N W T A: You'll experience a level of energy, a quality of masculinity, a deep sense of safety, joy and laughter, anger and fear, physical challenge, and a connection to life's mystery that we can't explain to you, no matter how hard we try. You'll have the opportunity to look with fearless honesty at the life you've created, and make profound choices about what you want to keep, what you want to expand, and what you want to let go of. You'll discover your unique connection to manhood, explore a new way of understanding masculinity, and step fully into the man you envision yourself to be.

NEW WARRIOR

Men's Circles

Men thrive only with support. Our Men's Circles are a primary value and force that MKP brings to the world: supporting, challenging and connecting men to each other and to their own highest potentials. We offer a number of types of men's circles.

Peer-Facilitated Support Groups

Since shortly after the first New Warrior Training Adventures, the Founders and those who followed realized the importance of helping men make the return to their world positive and effective. They knew the power of men sitting in circles with other men who supported and held them accountable. They knew that men who had a place to tell the unvarnished truth about their lives, to embrace the strength of vulnerability, could become role models, healers, and leaders in their communities. With this profound understanding of the need and the value of supporting men, MKP recognizes the essential value of Men's Groups.

Our circles help men deepen skills for conflict resolution, listening, emotional intelligence, goal achievement, and healthy boundary setting. I-Groups help men find and nurture a healthy, powerful and positive masculinity through the daily transitions of modern life. MKP serves a growing network of nearly 1000 peer support groups meeting weekly or biweekly, serving close to 10,000 men. I-Groups form the heart of our brotherhood, and are frequently open to visitors and guests.

Different Types of Men's Circles

Open Men's Groups

An Open Men's Group / Open Men's Circle is place for any man to experience the richness of men's work in a confidential and supportive container. Open Men's groups are facilitated by experienced New Warriors dedicated to helping men feel confident, competent, and connected in their growth as mature men.

Integration Groups

For men who have completed the New Warrior Training Adventure, the Integration Group (I-Group) is the heart of a New Warrior's practice. These meetings vary in style and content, but have at the core the values and philosophy of the NWTA.

Virtual Integration Groups

For men who have completed the NWTA, Virtual I-Groups are held via video conferencing, and facilitated by trained Virtual I-Group hosts. Perfect for men without access to face to face meetings.

During the PIT, men learn the foundational tools needed to participate in ManKind Project men’s circles. Many of the concepts and frameworks introduced on the New Warrior Training Adventure are explored and refined to ground men in practices to help them be the mature men they want to be in every endeavor.

What They Are Saying!

"Mondo Zen training is one of the most important, creative, and novel additions to the meditation pantheon, highly recommended for the accelerated effect it has on spiritual growth and development. Definitely check it out!"

—Ken Wilber, The Integral Vision

"The most significant insight was how I have allowed my emotions much more room than they merit, not uncommon for an emotional type. In actuality, the emotions simply offer information, much like the rest of the senses. Unexamined, my emotions cause powerful reactions like anger, shame, or disconnection, with fear always underneath. Dropping through the fear reveals the deep caring that is present. To be able to feel the deep caring opens the door to love."

The Next Step Training

A next step on your journey of healing and transformation; an integration of vision, action, and mission into your daily life.

Take a Next Step

The Next Step Training is open to men and women who regularly participate in peer-support circles such as I-Groups and E-Circles in which peer-facilitated processes occur.

In your initiation training, you may have been introduced to a deeper awareness of who you are, and how your life works and doesn't work. You may have learned how to sit in circle with your brothers and/or sisters, and own and embrace the shadows that are at play in your life. You may have tapped into something greater than yourself, discovered your own personal mission of service and chosen to take full responsibility for your life.

The Next Step Training is designed to be a deep dive into the integration of vision, mission, and action into your daily life; to take the catharsis of initiation and transform it into meaningful choices, habits, and actions to manifest your vision in the world. You will learn to change your life from the inside out.

Because the dynamic of the Training is improved by an even ratio between men and women, 15 spots are reserved for each sex. When those 15 spots have been sold a free "waitlist" ticket will be made available. If spots of either gender are open a week before the Next Step Training then those on the waitlist will be allowed to take the empty spots.

In this training you will:

- Discover a deeper mission and gain greater clarity on how you can live this mission in every aspect of your daily life.
- Go from owning and embracing your shadows to healing and transforming them into allies that support your mission.
- Learn powerful facilitation tools that can take your everyday experiences and weekly circle to a new level.
- Experience a step-by-step process of deep healing and learn to facilitate the same deep healing in others.
- Add a cognitive context for the work that aligns your head and your heart and adds a depth to your facilitation.
- Develop a Portal to your Inner World and take the next step on your inner world journey.
- Learn mastery of this Inner World, connect to resources and the parts of yourself that live there.
- Establish a base for your inner work where these parts can gather, work with each other and express your life.

The nature-based journey of soul initiation is the way to personal revelation, visionary leadership, and cultural regeneration.

Guiding the descent to soul since 1980.

Wild Mind for Warriors

Based on Bill Plotkin's book, Wild Mind: A Field Guide to the Human Psyche, this 5-day intensive is an experiential exploration of our human psyches as unique expressions of the universal forces and patterns of nature. Working with what the Nature-Based Map of the Human Psyche, which is, among other things, a comprehensive inventory of what can be right about a person, a "shadow" version of the Diagnostic and Statistical Manual (DSM), mainstream psychology's list of what can go wrong with people.

Our wild minds possess astonishing resources, untapped potentials and depths that we might not even know exist until we discover how to access them, cultivate their powers, and eventually integrate them into our everyday lives. In this intensive, we'll access these depths and potentials — which we call the four facets of the Self, or the four dimensions of our innate human wholeness — and also the four sets of fragmented or wounded subpersonalities that form during childhood. Our goal is to fully embody our multifaceted wild minds, commit ourselves to the largest, soul-infused story we're capable of living, and serve the greater Earth community.

Discover

- How to recognize and consciously cultivate the four facets of the Self — your innate human wholeness
- How to identify the subpersonalities that supported you in childhood and adolescence, but ultimately became barriers to your full and authentic humanity
- Practices and guidelines for cultivating relationships between the Self and your subpersonalities, enabling you to heal your subpersonalities, discover their gifts, and foster Self-actualization
- How each facet of the Self provides essential resources for the underworld journey (the descent to soul), its radical transformation of personal identity, and for living as a visionary.

Explore the landscape of the psyche through a variety of practices, including creative expression, self-designed ceremony, solo exercises while wandering on the land, group work, movement, voice dialogue, journaling, and deep imagery work.

SoulCraft Intensive

Based on Bill Plotkin's book Soulcraft: Crossing Into the Mysteries of Nature and Psyche. The Soulcraft Intensive is a five-day experiential plunge into the wild depths of Soulcraft; a synergistic set of nature-based practices designed to evoke the life-shifting experience of soul encounter.

Soulcraft practices spring from nature-based cultures, modern depth psychology, the poetic tradition, and wilderness rites of passage—to comprise a truly contemporary Western path to soul discovery and soul initiation. Alternates between practices utilized in group, practices explored in solitude in nature, and sharing and deepening those experiences in small groups. By the end of the intensive, you will understand yourself and your place in the world from a more soul-oriented perspective, be clearer about the gifts you were born to bring to the world, and have new skills to enrich your life and to defend the health of the more-than-human world.

"The Soulcraft seminar with Bill Plotkin is some of the deepest and most profound work I have ever experienced. I am still in awe of the results that can be achieved when you enlist the collective unconscious and Mother Nature to guide you to your core. The nature-based journey of soul initiation is the way to personal revelation, visionary leadership, and cultural regeneration.

Guiding the descent to soul since 1980.

The Animas Quest

This contemporary Western embodiment of the ancient, pan-cultural vision fast is a dynamic wilderness rite for men and women seeking greater depth and clarity about life purpose and meaning. As a rite of initiation, the quest is a ceremonial descent to the underworld, in which you die to your familiar way of belonging to the world, uncover the passion and wisdom of your soul, and retrieve the gift that is yours alone to bring to the world.

The Animas Quest catalyzes the encounter with soul by temporarily displacing everyday consciousness through five primary means: (1) solitude for three or four days and nights while (2) fasting (i.e., drinking water only), (3) being fully exposed to and enfolded within the forms and forces of nature, (4) enacting a series of ceremonies, and (5) employing a set of practices (soulcraft) that support you in crossing into the mysteries of nature and psyche.

Most often, quests take place over a total of 11 days, 8-11 of which are spent in the wilderness. Preceding your time of solitude are five full days of preparation activities that enhance your ability to benefit from the fast.

The Quest Includes:

- Five preparation days together, during which we work with dreams, poetry, deep imagery, ceremonial drumming and dance, dialogues with nature, the way of council, and other practices to help us slip out the door of our everyday lives.
- Three days and nights solo, the heart of the quest, without human companionship in nature, fasting, engaging in personal ceremonies, saying yes to the mysteries of soul, tending the true mythos of your life, praising and grieving, and birthing a vision.
- Three days of reincorporation, upon your return to base camp, there are activities, preparing you to embody among your people what you received on your fast. The last of these three days takes place back at the retreat center or car-camp.
- NO previous backpacking experience is required.
- Participants are responsible for their personal camping gear, 3-7 personal lunches, and personal snacks.
