

November 5, 2025

To the Board of Directors of
The ManKind Project USA

We have audited the financial statements of The ManKind Project USA (the “Organization”) for the year ended December 31, 2024, and have issued our report thereon dated February 4, 2025. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated May 15, 2025. Professional standards also require that we communicate to you the follow information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Organization are described in Note 1 to the financial statements. We noted no transactions entered into by the Organization during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management’s knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimate affecting the financial statements was:

Management’s estimate of fixed asset depreciation is based on the straight-line method and the estimated useful life of the asset. We evaluated the key factors and assumptions used to develop the depreciation estimate in determining that it is reasonable in relation to the financial statements taken as a whole.

Management’s estimate of the net present value of future lease payments used to determine the value of the Right-of-Use Asset and Lease Liability included on the Statement of Functional Expenses is based on the current market interest rates. We evaluated the key factors and assumptions used to develop the estimate in determining that it is reasonable in relation to the financial statements taken as a whole.

Difficulties Encountered in the Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. There were no misstatements that required correction.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated October 30, 2025.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the Organization's financial statements or a determination of the type of auditors' opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the Organization's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

In the course of our examination, we noted the following items:

Accounts Receivable Detail – noted credit amounts included in the current category that were unapplied to the applicable customer invoice. While this treatment results in the appropriate balance in total, we recommend that all receipts or write-offs of customer accounts be applied to the original invoice when entered, and that a periodic review of the aging be performed monthly. This practice will improve the presentation of the aging report, allowing for a clearer representation of accounts due by aging category.

Accounts Payable Detail – noted individual old (90+ day) balances continue to increase year over year, and that many carried over from our prior year reports provided to us during those examination periods. We recommend that these older accounts be reviewed for potential write-off to clear out any amounts that will not be paid, and that all accounts 90 days past due be periodically reviewed and appropriately written off at year end.

This information is intended solely for the use of the Board of Directors and management of The ManKind Project USA and is not intended to be, and should not be, used by anyone other than these specified parties.
